“Zig Ziglar says, ‘Your attitude, not your aptitude, determines your altitude in life.’ The 3-Minute Difference is a fantastic book that hits the ‘attitude nail’ on the head and is perfect for people who want more success in their personal, family, business, and spiritual lives. The three-minute survey helps you pinpoint the attitude you have while the book gives you a specific game plan on how you can take control of your attitude, eliminate the negatives, and start achieving more of the things you want. The 3-Minute Difference shows you where to start and then gives you a plan on how to get there.”

– Tom Ziglar, President & CEO, Ziglar
